Chief Learning Officer

The Academy Forums

The Academy consists of 16 Executive Forums and two Summits (CEO and Trustee). This peer network is designed for senior-level corporate executives of the Top-100 Health Systems and prominent corporations who have similar challenges and opportunities.

The Chief Learning Officer Forum

The Chief Learning Officer (CLO) Forum is designed for learning officers of the largest health systems whose organizations have similar challenges and opportunities by virtue of their size, focus on integration, and prominence in their communities.

The responsibilities of the Chief Learning Officer have grown dramatically over the years. With healthcare and integrated health systems evolving at a rapid pace, the need to organize around leadership, succession planning, integration, and learning and technology have become necessary directions for health systems. As a result, the Chief Learning Officer has assumed a larger and more important role.

Programming

The Chief Learning Officer Forum convenes twice annually. Meeting topics are developed through active discussions with Forum members and focus on strategic initiatives. Formats vary and include a combination of case study profiles, guest speakers, and small and large group discussions:

- Topics - Include succession planning, employee engagement, culture, integration, and learning technologies;
- Health System Executive Discussions - Include challenging issues such as patient-as-consumer, innovative ways to improve performance, growth and M&A, and physician leaders in new care models;
- Fireside Chats- Compelling guests include prominent health and business executives, authors, and other successful individuals.

Membership Benefits

Members of the CLO Forum receive the following benefits:

- An exclusive peer network of CLOs representing Top-100 health systems;
- A stake in driving transformation through active strategy discussions about topics such as health system's innovation strategy and culture;
- Access to The Academy's member network, research, and advisory expertise.

Strategic Industry Partnerships

By design, The Academy Forums include a balance of health system and health industry executives collaborating within the guidelines of The Academy's Code of Conduct and Principles of Participation. Health system and industry executives interact to assess and anticipate trends, test new ideas, and collaborate to identify and accelerate new innovations.

Fees

The fee for the CLO Forum is \$3,500 per member annually. As with all forums, members are responsible for their own travel and lodging expenses.
