University of Maryland Medical System

**Membership as of 1/1/2019*

Chief Nursing Informatics Officer

The Academy Forums

The Academy consists of 16 Executive Forums and two Summits (CEO and Trustee). This peer network is designed for senior-level corporate executives of the Top-100 Health Systems and prominent corporations who have similar challenges and opportunities.

The Chief Nursing Informatics Officer Forum

The CNIO Forum is designed for Chief Nursing Informatics Officers of the largest health systems, whose organizations have similar challenges and opportunities by virtue of their size, focus on integration, and prominence in their communities.

Programming

The CNIO Forum convenes twice annually. Meeting topics are developed through active discussions with CNIO Forum members and focus on future-oriented strategic topics. Formats vary and include a combination of case study profiles, guest speakers and small and large group discussions:

- Topics – Optimization strategies, growth and evolution of role, patient family center design, device integration, and patient-centered care
- Issues Forums – Health system and industry members share insights on opportunities and challenges facing large health systems
- Health System Discussions – Health system members convene to discuss key strategic issues and share best practices
- Fireside Chats – Members gather for interviews with notable guests including health and business executives, political experts, authors, and other prominent individuals

Strategic Industry Partnerships

By design, The Academy Forums include a balance of health system and health industry executives collaborating within the guidelines of The Academy's Code of Conduct and Principles of Participation. Understanding that transformation is driven by societal and healthcare trends, health systems continuously evolve their innovation strategies and pursue superior execution. Health system and industry executives partner to assess and anticipate trends, test new ideas, and collaborate to identify and accelerate new innovations.

Membership Benefits

Members of the CNIO Forum receive the following benefits:

- An exclusive peer network of CNIOs representing Top-100 health systems
- A stake in driving transformation through active strategy discussions with peers
- Access to The Academy's member network, research, and consulting expertise
- Annual membership is all-inclusive of meeting fees and meals; members are responsible for their own travel and lodging
