

HEA Annual Summit

Oct 11-12
2023

Darden Center
Arlington, Virginia

At The Academy, we power our community to drive health forward.

Since 1998, we have been cultivating the premier community of healthcare's most influential changemakers made up of executives from the top 150 U.S. health systems and the most innovative industry partners. Our members are aligned around a common goal of improving health for all, and a core belief that partnership will accelerate progress.

Topics Underway for the Fall 2023 HEA Changemakers Summit

As The Health Equity Alliance prepares for its inaugural in-person summit in collaboration with The Academy's Strategy Catalyst team, we look forward to working with our members to shape session content alongside strategy executive leaders. High priority topics currently in development include:

- › Interactive workshop on developing a change management strategy to advance health equity agenda across an enterprise using adopted lessons from health and non-health industry partners
- › Panel insights on the impact of the new requirements and standards release by The Joint Commission on health disparities
- › Joint session focused on applying an equity lens into organizational strategy to drive progress and improve outcomes
- › Panel discussion focused on strategically securing executive buy-in and generating financial incentives to fund health equity efforts
